EVEN IN LOUISIANA

The Protection Sentiment is Uppermost, but it is Not Broad Enough.

Chicago Inter-Ocean: In Louisiana there were many candidates for election to the senate of the United States took the unusual, though not censurable, course of inviting each of them to appear before it, and to declare his opinions concerning the burning questions of tariff and currency. The outto the senate of the United States. The

tions of turing and currency. The out-come stands thus: Pharri fusionist, declares for free sil-ver and a strongly protective tariff. Denegree, Democrat, 16 to 1 currency, and protection to the industries of Lou-isiana.

islans.

Blackman, Democrat, free coinage and protection to the industries of Lou-

Islana.

Thus far all are allke as being silverites, and as being in some degree protectionists; but Pharr is the only one
with sense enough to give them to understand that "Louisiana industries"
cannot be protected unless the industries of all states are protected. We regard all but Pharr as free traders at
heart, and as declaring for "protection
to Louisiana industries" only under the
spur of nocessity. No protection ought
to be given to the sugar of Louisiana
until Louisiana is ready to give protection to the wool of Montana and
Ohlo, and the lumber of Maine and
Wisconsin.

Price, Democrat, was the sole straddier of the tariff question. This pecular gentleman announced himself as
standing on what the New Orleans
Picayune makes him to speak of as:
"The time-honored and solid Democratic doctrine platform of tariff for
revenue only, but so arranged as to
give protection to home industries and
products."

We do not like to charge Candidate Thus far all are alike as being sliver-

We do not like to charge Candidate Price with dishonesty, and therefore are obliged to charge him with the most crass ignorance. The Democratic policy is diametrically opposed to what Mr. Price describes as:

Price describes as:
"A tariff for revenue only, but so arranged as to give protection to home industries and products."
The last averment of Democratic polley, made by the national convention, reads thus:
"We denounce protection as a fraud."
The language is plain to the verge of coarseness. The averment continues:

of coarseness. The averment continues:

"We declare it to be a fundamental principle of the Democratic party that the federal government has no constitutional power to collect and enforce tariff duties except for the purposes of revenue only,"

Note the use and force of the words "fundamental" and "only,"

Mr. Price is either grossly ignorant or profoundly false when he strives to make it appear that the industries of Louisiana can be protected without violation of what he is reported as calling "the time-honored and solid Democratic dectrine."

dares pay open homage to the bed gened harlot that four years ago stalk abroad and proclamed herself as the Star Eyed Goddess of Turiff Reform.

How the Clouds Form for the Assault. The Final Greatery Ponner.

ditions of 600 tornadoes does not encourage the weather bureau in the be-lief that warnings can be given to any locality. Cold currents of air coming in contact with warm currents start the gyratory motion, the clouds form and the tornado is off, all in a few hours. There are, however, certain con-ditions which may serve as tornado forecasts to the ordinary observer. "A sultry, oppressive condition of the at-mosphere" usually precedes. The more sensitive physically experience "in sick-sensitive physically experience "in sickmosphere" usually precedes. The more sensitive physically experience "a sickly sensation under the sun's rays," a "want of breath," a peculiar exhaustion." The next thing is the formation of clouds in the southwest, unlike any ordinary formation. "If they are light, their appearance resembles amoke is stack, rolling upward in shapes to great heights; they are like a fine mist, or q clouds are dark and perceived support of the problem of the proble

the ternado's approach" in the form of "a heavy roaring, which augments in intensity as the tornado cloud advances. This roaring is compared to the pas-sage of a heavily-loaded freight train noving over a bridge or through a deep pass or tunnel, or as heard on damp mornings, when the sound is clear and loud. The noise is sufficiently peculiar and distanct to credite alarm, and as a means of warning should not be over-looked."

German Woolen Industry, WASHINGTON, D. C., June 2.-A most instructive report upon German Woolen Industries has been contributed to the state department by United States Consul Monochan, at Chemmitz, showing not only the magnitude of those industries, but the means by which the German merchants have so successfully increased their export trade at the expense of their powerful rivals, including the United States. Among other things the consul says the Germans are convinced that their moderate protective system has been the smeans not only of giving them the home market, but of securing markets, in other countries. to the state department by United

The Oregon Election.

PORTLAND, Ore., June 3.—Returns received this morning indicate that the rophilists have elected both Congress-men from this state. The Republicans control the legislature, which gives them the United States senator. The legislature stands: Senator-Republi-cans, 25; Democratis, 1; Popullats, 2; House-Republicans, 31; Popullats, 9; Democrats, 5; bimetallic, 3; doubtful, 10.

New Postmaster.

Children Cry for Pitcher's Castoria.

SHAKERS AND DOCTORS TALK TO-GETHER. -

In his able work entitled "Longey

In his able work entitled "Longevlix," published a few years ago.Dr. John
Gardner, of England, predicts that a
vegetable agent will yet be found that
shall so retard those changes that he inselected
about old age as to prolong human life,
much beyond its plesent limit.

Acting, perhaps, upon the impulse
produced by this thought, many emiment physicians have called from time
to time upon the Shakers of Mt. Lebanon to inquire of them concerning the
secrets of mediginal plants, in which
these sincere, simple-minded, and Godfearing people are known to be wise and
skillful beyond all other men.

The Shakers willingly told what they
had learned, and in return received
from their visitors much valuable information about disease; which they
at once made practical use of. The
most important point was that if a
genuine and certain remedy could be
found for indigestion and dyspepsia,
and the aliments growing out of it, a
long step would be taken in the right
direction. Old age, said these physicians, begins in a failure of the digestion
and so do most diseases at any and all
periods of life. The result of these consultations was fine diseased any and all
periods of the desired specific, made
wholly from herbs, and now known as
the Shakers of the desired specific, made
wholly from herbs, and now known as
the Shaker Digestive Cordial. Its action is magical and worthy of its orlgin.

Where there is distress after earing, heart-burn, sick headache, bad tasts in the mouth, billousness, weakness and weariness, cold hands and feet, aversion to food, nervousness, or any other symptoms of dyspepsia, the Cordial will prove its curative virtues. Behind it is the reputation of a people who have never defrauded or deceived their fellow man.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.
NEW YORK, June 3.—Money on call

easy at 11462 per cent; last loan 2 per cent; closed at 11462 per cent. Prime mercantile paper 4@514 per cent. Sterling exchange steady, with actual busi-ness in bankers' bills at \$1.884@48815 for demand and \$4.874@48715 for sixty days. Posted rates \$4.8864.89 and \$4.8864.90. Commercial bills \$4.869. Sil-ver certificates 68%@68c. Bar silver 5334c. The share speculation to-day failed

The share speculation to-day failed to display any improvement in point of animation or distribution of business. The market at the outset was weak and lower, the concessions, however, being fractional. The traders who were responsible for the bulk of the limited dealings, were unfavorably impressed because formal passage of the Butler bond bill by the United States senate was the dealing of the limited formal passage of the Butler bond bill by the United States senate because formal passage of the Butter bond bill by the United States senate and by depression in the London prices for Americans. The lower range in-duced some covering purchases and a little buying for long account, although the succeeding prices were somewhat irregular, the market in a general way trended upward and late in the day al-most the entire list displayed improve-ment over vesterday's closing. The most the entire list displayed improve-ment over yesterday's closing. The industrials were consections in the dealings and in some mistances the movements that occurred were evident-ly inspired by manipulation. The general market was not especially in-fluenced by the weakness of Tobacco, which developed heaviness in the final dealings and broke 1% per cent and closed firm, with the railway list strengthened by the favorable exhibits of earnings presented.

strengthened by the favorable exhibits of earnings presented.

Rallway bonds were quiet and lower.
The sales were \$845,000.
Governments lacked feature, but were well held on sales of \$25,600.

In state securitien \$10,000 Tennessee

The total sales of stocks to-day were 5,525 shares. Evening Post's London financial bleggan. day, the Epsom races having drawn extra large contingent from the

an extra large contingent from the tock exchange.

Business in Americans is restrained, pending news of a character which will afford a more accurate forecast of the presidential election and meantime prices are dropping.

The Paris and Berlin markets were also onice, but steady, Copper shares

also quiet, but steady. Copponitione to manifest strength. BONDS AND STOCK QUOTATIONS.
